📍 Lahore, Pakistan

EXPERIENCE

Software Engineer

AspireX LLC

📅 02/2025 - Present 📍 Doha, Qatar

- Collaborated with UI/UX designers to convert wireframes and mockups into responsive, user-friendly web interfaces
- Applied Chakra UI and Material UI (MUI) to maintain visual consistency and accessibility in design systems.
- Worked closely with UI/UX designers to translate wireframes into pixel-perfect, user-friendly interfaces.
- Prioritized performance and responsiveness in every design element, enhancing user experience and engagement.

Software Engineer

Ili.digital ag

📅 02/2022 - 12/2024 📍 Lahore, Pakistan

- Developed and maintained responsive, scalable web applications using React.js and TypeScript (TSX), ensuring clean, maintainable, and reusable code
- Created custom reusable components, enabling faster development cycles and consistent user interfaces across projects
- Integrated REST APIs for seamless data exchange between front-end and back-end systems, ensuring dynamic and responsive user experiences.
- Leveraged modern frameworks like Tailwind CSS, Chakra UI, MUI, and Sass to deliver highly optimized, visually appealing, and responsive designs.
- Collaborated with cross-functional teams to develop solutions tailored to German businesses, ensuring compliance with European design and performance standards
- Utilized Bitbucket Pipelines for efficient version control, code reviews, and continuous integration (CI) processes
- Proactively identified and resolved performance bottlenecks, achieving faster load times and improved user satisfaction.
- Worked closely with UI/UX designers to translate wireframes into pixel-perfect, user-friendly interfaces
- Built and customized dynamic websites using WordPress and Elementor Pro, integrating custom JavaScript and CSS for enhanced interactivity
- Improved website speed and performance metrics, achieving better search engine rankings and reduced bounce rates
- Developed custom CMS solutions that increased client engagement and simplified content management workflows.

Wordpress Developer

Progenix LLC

📅 04/2020 - 02/2022 📍 remote

- Built and maintained scalable and secure web applications tailored to diverse business needs, ensuring performance and functionality
- Cloned and customized websites using Elementor Pro and Astra Pro, incorporating custom CSS, HTML, and JavaScript to deliver unique designs and interactivity
- Implemented advanced WordPress theme customizations using plugins to achieve desired aesthetics and enhanced functionality
- Designed and deployed both static and dynamic business websites, improving client online presence and user engagement

Web Development Intern

Bazingo inc

📅 07/2019 - 09/2019 📍 Lahore, Pakistan

- Gained hands-on experience in web development by working on HTML/CSS tasks
- Assisted in developing web interfaces and improving website layout consistency

EDUCATION

Bachelors of Computer Science (BSCS)

University of management and technology

📅 09/2017 - 10/2021 📍 Lahore, Pakistan

- Completed relevant coursework in web development and software engineering

Intermediate

Punjab group of colleges

📅 08/2015 - 08/2017 📍 Lahore, Pakistan

SUMMARY

Frontend Web Developer with 4+ years of experience building responsive, user-centric web applications and dynamic websites. Skilled in React.js, WordPress, HTML, CSS, Bootstrap, Sass, and modern UI frameworks like Material UI (MUI), Chakra UI and Ant Design (AntD), Tailwind CSS, ChakraUi. Adept at delivering exceptional UI/UX solutions, optimizing web performance, and collaborating with cross-functional teams. Proven track record of enhancing site efficiency and user engagement through innovative designs and robust implementations.

KEY ACHIEVEMENTS

Enhanced User Engagement

Implemented UI changes increasing user satisfaction by 20%.

Improved Performance Metrics

Optimized website speed reducing load times by 50%.
