PROFESSIONAL SUMMARY

Results-driven Frontend Web Developer with over 4 years of experience designing and building responsive, high-performance web applications and dynamic websites. Proficient in React.js, TypeScript, WordPress (eCommerce and business websites), HTML5, CSS3, and modern UI frameworks including Material UI, Chakra UI, and Tailwind CSS. Passionate about delivering exceptional user experiences that drive engagement and business growth.

CORE SKILLS & TECHNOLOGIES

Frontend: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS/SCSS, Bootstrap

UI Frameworks: Material UI (MUI), Chakra UI, Tailwind CSS, Ant Design

CMS & eCommerce: WordPress, WooCommerce, Elementor

Tools & Workflow: REST API Integration, GitHub, Canva, Responsive Design, Accessibility

PROFESSIONAL EXPERIENCE

Frontend Web Developer — [AspireX LLC](#)

February 2025 – Present | Lahore, Pakistan

- Designed and developed WordPress eCommerce websites using WooCommerce, including product catalog setup, payment gateway integration, and checkout customization for various business clients.
- Built WordPress business websites with custom themes and Elementor, delivering tailored solutions for corporate and service-based clients.
- Collaborated with designers to translate wireframes and mockups into responsive, pixel-perfect web interfaces.
- Applied Chakra UI and Material UI (MUI) to maintain visual consistency, design system adherence, and accessibility standards.
- Prioritized web performance optimization and cross-browser/device responsiveness.

Frontend Web Developer — [Ili.digital ag](#)

February 2022 – December 2024 | Lahore, Pakistan

- Developed and maintained responsive web applications using React.js and TypeScript for German business clients.
- Built modular, reusable component libraries to accelerate development and ensure consistent UI across projects.
- Integrated REST APIs to deliver dynamic and data-driven user experiences.
- Utilized Tailwind CSS, Chakra UI, MUI, and Sass for crafting optimized, accessible designs.
- Collaborated cross-functionally with backend developers and designers to deliver client-tailored solutions.
- Implemented CI/CD workflows using Bitbucket Pipelines for streamlined deployment and version control.
- Built and maintained WordPress websites for small and medium-sized businesses as part of early project work at Ili.digital ag.

Web Development Intern — [Bazingo Inc](#)

July 2019 – September 2019 | Lahore, Pakistan

- Gained hands-on experience with HTML/CSS fundamentals in a professional development environment.

- Assisted in developing web interfaces and improving layout consistency across multiple pages.

KEY ACHIEVEMENTS

- Improved user engagement through targeted UI improvements and interface redesigns across multiple client projects.
- Significantly reduced website load times via performance auditing, code splitting, lazy loading, and asset optimization.
- Successfully delivered multiple WordPress eCommerce stores and business websites for clients at AspireX LLC.
- Built and launched Fann, an artist marketplace platform enabling creatives to showcase and sell their artwork directly to buyers.
- Developed and deployed eCommerce websites for KumaSportsPK and HomeTreatsPK, enabling seamless online ordering for end customers.
- Contributed to long-term projects serving German market clients over a three-year engagement at Ili.digital ag, consistently meeting delivery deadlines.
- Developed a reusable component library at Ili.digital ag that meaningfully reduced average feature development time across projects.
- Maintained full cross-browser and cross-device compatibility on all delivered projects through thorough responsive design practices.

PROJECTS

Ravestruck – [Global Rave & Party Events Platform](#)

A party and events discovery website providing information about raves, music festivals, and nightlife events happening around the globe, with an energetic, visually immersive design.

KumaSportsPK – [Sports eCommerce Website](#)

A fully functional eCommerce store for a Pakistani sports shop, featuring product catalog management, cart and checkout flows, and WooCommerce integration for streamlined order handling.

HomeTreatsPK – [Bakery eCommerce Website](#)

An eCommerce platform for buying and selling homemade and bakery items, with a warm, consumer-friendly interface and full online ordering capability.

Fann – [Artist Marketplace Platform](#)

An artist-based platform where creatives can showcase their portfolios, list artwork for sale, and connect directly with art buyers, with a focus on visual presentation and seamless purchasing experience.

SH Construction – [Construction Business Website](#)

A professional WordPress business website for a construction company, showcasing services, completed projects, and company credentials to attract new clients and build online credibility.

StayX – [Employee Training & Engagement Platform](#)

Employee Management Platform that merges training and entertainment to deliver engaging, interactive learning experiences.

WindoXX – [Unused Space Monetization Platform](#)

Platform that helps property owners monetize unused spaces by connecting them with potential renters and businesses.
